

“More than I ever hoped!”

John Allen, Williamstown, MA

“I coached athletics for 42 years. I love to be active, even if it’s just chasing my grandchildren around in the yard. That’s why it was so discouraging when I started experiencing knee pain. I couldn’t play golf, or even walk without terrible pain. I’d heard great things about Dr. Jonathan Cluett, so I went in for a consultation. He recommended surgery ... and the rest is history. Ten weeks later, I was walking pain-free for the first time in many years. The whole experience has been more than I ever hoped. I’m just very, very pleased.

Thanks, Dr. Cluett and NARH, for letting me become active again!”

The Joint Replacement Center of Northern Berkshire can help you, too.
Faster recovery. Less pain. You’re back in action.
Call 413.664.5646 (413.664.JOINT) to get going.
