## “The Wound Healing Center is phenomenal!”

Jessica Richard, North Adams, MA

---

“When I had my second child, Hadley, by C-section my surgical wound needed to be reopened. My obstetricians, Dr. O’Neill and Dr. Yates, recommended that I go to the Wound Healing Center of the Berkshires at NARH for follow-up. I was soon on the road to recovery and a completely healed wound. I couldn’t wait to ring the Center’s bell to signify I was healthy again. The doctors and nurses at the Wound Healing Center were super – very caring and conscientious.

“And yes, I got to ring the bell!”
